To,
EVEXIA LIFECARE LIMITED
VILL : TUNDAO, TAL: SALVI VADODARA-391775

Dear Sir,

Sub: Valuation Analysis of the Equity Shares of EVEXIA LIFECARE LIMITED

I refer to our engagement letter dated May 10, 2023 for carrying out the valuation of Equity Shares of EVEXIA LIFECARE LIMITED (here-in-after referred as "Company" or "ELL"). In accordance with the terms of the engagement, I am enclosing my report along with this letter. In attached report, I have summarized my Valuation analysis of the Shares together with the description of methodologies used and limitation on my Scope of Work.

Based on my assessment and in terms of first Proviso to the Sub-Regulation 1 of Regulation 166A r.w. Regulation 164 (1) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("SEBI ICDR Regulations"), as amended from time to time, the Floor Price of the Equity Share of the Company having Face Value of Rupee 1.00 each has been arrived at **Rs.2.83 (Rupees Two Rupees and Eighty three paise only)**. In case you require any further assistance, please feel free to contact me.

This Valuation Analysis is confidential and has been prepared for you for providing the same to government or regulatory authorities and this report can be provided to potential investor of ELL for enabling compliance under various laws as detailed hereinafter in this report. It should not be used, reproduced or circulated to any other person, in whole or in part, without my prior consent. Such consent will only be given after full consideration of the circumstance at that time. I trust that above meets your requirements.

Please feel free to contact us in case you require any additional information or clarifications.

Thanking you,

Yours faithfully,

.....
CS Barkha Deshmukh

8. VALUATION STANDARDS

The Report has been prepared in compliance with the internationally accepted valuation standards.

9. VALUATION APPROACHES AND METHODS

For the purpose of valuation, it is necessary to select an appropriate basis of valuation amongst the various valuation techniques. Valuation is not an exact science and is dependent on various factors such as specific nature of business, economic life cycle in which the industry and company is operating, past financial performance of the business, future growth potential of the business, business model, management of the company, relevance of technology in the business model, liquidity of equity and much more. The results of the valuation exercise may vary significant depending on the basis used, the specific circumstances and the judgement of the valuer. In respect of going concerns, certain valuation techniques have evolved over time and are commonly in vogue.

IVS 105 read with IVS 200 specifies that generally the following three approaches for valuation of business/business ownership interest are used:

Private &

- I. Cost Approach - Net Asset Value (NAV)
- II. Income Approach
- III. Market Approach.

I. Cost Approach - Net Asset Value (NAV)

The value under Cost Approach is determined based on the underlying value of assets which would be on book value basis, replacement cost basis or on the basis of Realizable value. The Net Assets Method represents the value with reference to historical cost of assets owned by the company and the attached liabilities on particular date. Net asset will be calculated starting from the total assets of the company and deducting there from all debts, borrowing and liabilities, including current and Likely contingent Liability and preference capital if any. In other words it should represent true net worth of business after providing for all outside present and potential liabilities. In the case of companies, the net assets value calculated from assets side of the balance sheet in the above manner will be crossed checked with equity share capital plus free reserve and surplus, less likely contingent liabilities.

I have considered the above approach as the said method derives the value with reference to historical cost of assets owned by the company and the attached liabilities on particular date as detailed in *Annexure 1*.

II. Income Approach- Discounted Cash Flows (DCF) method

Under Income Approach, business is valued by converting maintainable or future amount of cash flows to a single current amount either through discounting or capitalization. DCF method seeks to arrive at the value of the business based on its future cash flows generating capability and the risks associated with the said cash flows. Free Cash Flow to Firm (FCFF) represents the cash flows available for distribution to both the owners and other creditors of the business. Risk-adjusted discount rate or Weighted Average Cost of Capital (WACC) is applied to free cash flows in the explicit period and that in perpetuity. Adjustments pertaining to debt, surplus/non-operating assets including investments, cash & bank balances and contingent assets/liabilities and other liabilities, as relevant, are required to be made in order to arrive at the value for equity shareholders. The total value for the equity shareholders so arrived is then to be divided by the number of equity shares to arrive at the value per equity share of the company.

I have not considered the above approach due to unavailability of future projections of ELL as I understand that projections of ELL would be price sensitive information, which was therefore not made available to me.

III. Market Approach:

Market approach is a valuation approach that uses prices and other relevant information generated by market transactions involving identical or comparable (i.e., similar) assets, liabilities or a group of assets and liabilities, such as a business.

The following valuation methods are commonly used under the market approach:

- a) Market Price Method
- b) Comparable Companies Multiple (CCM) Method; and
- c) Comparable Transaction Multiple (CTM) Method;

Private & Confidential

Market Price Method

The Equity Shares of Company are listed on BSE Limited for a period of more than 90 trading days as on the relevant date i.e. May 16, 2023 and are frequently traded in accordance with SEBI ICDR Regulations.

In case of "frequently traded shares (Regulation 164(1) of the SEBI ICDR Regulations:

If the equity shares of the Company have been listed on a recognised stock exchange for a period of 90 trading days or more as on the relevant date, the price of the equity shares to be allotted pursuant to the preferential issue shall be not less than higher of the following;

- a. the 90 trading days' volume weighted average price of the related equity shares quoted on the recognised stock exchange preceding the relevant date; or
- b. the 10 trading days' volume weighted average prices of the related equity shares quoted on a recognised stock exchange preceding the relevant date.

Provided that if the Articles of Association of the issuer provide for a method of determination which results in a floor price higher than that determined under these regulations, then the same shall be considered as the floor price for equity shares to be allotted pursuant to the preferential issue.

Articles of Association of the Company do not provide for any particular method of determination which results in a floor price higher than that determined under SEBI ICDR Regulations.

The Company's Equity Share are listed only at one Nationwide Stock Exchange i.e. on BSE Limited and accordingly, "BSE Limited" is the Stock exchange on which the highest trading volume in respect of the equity shares of the issuer has been recorded during the preceding 90 trading days prior to the relevant date. Accordingly, I have determined value of equity share of ELL as prescribed under the above regulations for market approach.

As per Regulation 166A of SEBI (ICDR) Regulations,

166A (1) Any preferential issue, which may result in a change in control or allotment of more than five per cent of the post issue fully diluted share capital of the issuer, to an allottee or to allottees acting in concert, shall require a valuation report from an independent registered valuer and consider the same for determining the price:

Provided that the floor price, in such cases, shall be higher of the floor price determined under sub-regulation (1), (2) or (4) of regulation 164, as the case may be, or the price determined under the valuation report from the independent registered valuer or the price determined in accordance with the provisions of the Articles of Association of the issuer, if applicable:

Provided further that if any proposed preferential issue is likely to result in a change in control of the issuer, the valuation report from the registered valuer shall also cover guidance on control premium, which shall be computed over and above the price determined in terms of the first proviso:

Provided further that the valuation report from the registered valuer shall be published on the website of the issuer and a reference of the same shall be made in the notice calling the general meeting of shareholders.

(2) Any preferential issue, which may result in a change in control of the issuer, shall only be made pursuant to a reasoned recommendation from a committee of independent directors of the issuer after considering all the aspects relating to the preferential issue including pricing,

and the voting pattern of the said committee's meeting shall be disclosed in the notice calling the general meeting of shareholders.

Explanation.—The meeting of the independent directors referred in sub-regulation (2) shall be attended by all the independent directors on the board of the issuer.]

Comparable Companies Multiple (CCM) Method

Comparable Companies Multiple Method, also known as Guideline Public Company Method, involves valuing an asset based on market multiples derived from prices of market comparables traded on active market. Under this method, the value of shares of the subject company is determined on the basis of multiples derived from valuations of comparable companies. Relevant multiples needs to be chosen carefully and adjusted for differences between the circumstances. The CCM Method arrives at the value of the company by using multiples derived from valuations of comparable companies, as manifest through stock market valuations of listed companies. This valuation is based in the principle that market valuations, taking place between informed buyers and sellers, incorporate all factors relevant to valuation.

I have not considered this method as it was difficult to find comparable companies in accordance with geographical location, capital structure, business structure etc. of the subject company and have considered the Market Price Method prescribed under SEBI (ICDR) Regulations.

Comparable Transaction Multiple (CTM) Method

Comparable Transaction Multiple Method, also known as 'Guideline Transaction Method' involves valuing an asset based on transaction multiples derived from prices paid in transactions of asset to be valued /market comparables (comparable transactions). I have therefore not considered CTM method for valuation due to non-availability of similar comparable transaction.

10. VALUATION ANALYSIS:

The value per equity share of ELL are based on the various approaches/methods explained herein earlier and various qualitative factors relevant to each company and the business dynamics and growth potential of the business of the Companies, having regard to information base, key underlying assumptions and limitations. I have independently applied methods discussed above, as considered appropriate, i.e. Market Price Method and Cost Approach method for determining value per share of ELL.

In light of the above and on consideration of all the relevant factors and circumstances as discussed and outlined herein above referred to earlier in this report for the proposed transaction, I recommend the fair value of equity shares of ELL at **INR 2.83 (Rupees Two and Eighty three paise only) per equity share, which is higher of value arrived in Annexure 1 and 2.**

In terms of first Proviso to the Sub-Regulation 1 of Regulation 166A r.w. Sub-Regulation 1 of Regulation 166A and Regulation 164(1) of the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018 ("SEBI ICDR Regulations") and by using the Valuation Parameters, the following is the Valuation Analysis of Equity Shares of the Company.

Sr. No.	Valuation Parameters	Value per Equity Share (in Rupees)
1.	Net Asset Value Method	1.31
2.	Market Value Method	2.83

For, detailed working calculation of Value of Equity Share, please refer;
Annexure 1 - For Net Asset Value Method
Annexure 2 - For Market Value Method

For arriving at the value of per equity share of ELL and considering valuation inputs available for determining valuation under Market Price method and NAV method, I have applied equal weights to arrive at the value per equity share of ELL.

Sr. No.	Method	Valuer per equity share (in Rs.)(A)	Weights (B)	Weighted (C=A*B)
(a)	Net Asset Value Method	1.31	50%	0.65
(b)	Market Value Method	2.83	50%	1.41
TOTAL(D)			1	2.06
Floor price (In Rupees) (Total of C/D)				2.06

11. CONCLUSION:

In the ultimate analysis, valuation will have to involve the exercise of judicious discretion and judgment taking into account all the relevant factors. There will always be several factors, e.g. present and prospective competition, yield on comparable securities and market sentiments etc. which are not evident from the face of the documents available with me but which will strongly influence the worth of a Shares and Debentures.

In the light of the above and on consideration of all the relevant factors and circumstances as discussed and outlined in this report, I conclude as under:

Sr. No.	Provisions	Minimum Floor Price (in Rupees)
A	Floor Price in terms of first Proviso to the Sub-Regulation1 of Regulation 166A of the SEBI ICDR Regulations	2.06
B	Floor Price in terms of the Sub-Regulation 1 of Regulation164 of the SEBI ICDR Regulations	2.83

Accordingly, the Floor Price of the Equity Share of the Company having Face Value of Rupee 1.00 each in terms of Chapter V of SEBI ICDR Regulations as at Relevant date is INR 2.83 (Rupees Two and Eighty three paise Only).

Further, as per second proviso to Regulation 166A of SEBI (ICDR) Regulations, 2018, if any proposed preferential issue is likely to result in a change in control of the issuer, the valuation report from the registered valuer shall also cover guidance on control premium, which shall be computed over and above the price determined in terms of the first proviso. Accordingly, in this proposed preferential issue it is being informed by the management of the company that there is no change in control of the issuer and therefore there is no requirement for covering control premium over the price determined hereinabove.

12. CAVEATS, LIMITATIONS AND DISCLAIMERS:

My report is subject to the scope limitations detailed hereinafter.

As such the report is to be read in totality, and not in parts, in conjunction with the relevant documents referred to herein and in the context of the purpose for which it is made. My engagement for this valuation consulting work does not include any procedures designed to discover any defalcations or other irregularities, should any exist.

I have provided an assessment of the value based on the information available, application of certain formula and within the scope and constraints of our engagement, others may place a different value to the same. However, I independently did not verify such information and make no representation as to the accuracy or completeness of such information obtained from or provided by such sources.

The company and its representatives warranted to me that the information supplied to me was complete and accurate to the best of their knowledge and that the financial information properly reflects the business conditions and operating results for the respective periods in accordance with generally accepted accounting principles. Information supplied to me has been accepted as correct without any further verification. I have not audited, reviewed, or compiled the historical provided to me and, accordingly, I do not express any audit opinion or any other form of assurance on this information. Because of the limited purpose of the information presented, it may be incomplete and contain departures from generally accepted accounting principles. In the course of the valuation, I was provided with both written and verbal information. I have however, evaluated the information provided to me by the Company through broad inquiry, analysis and review but have not carried out a due diligence or audit of the information provided for the purpose of this engagement.

My conclusions are based on the assumptions, forecasts and other information given by/on behalf of the Company. I assume no responsibility for any errors in the above information furnished by the Company and consequential impact on the present exercise.

The draft of the present report was circulated to the Management for confirming the facts stated in the report and to confirm that information or facts stated are not erroneous and the assumptions used are reasonable.

No investigation on the Company's claim to title of assets has been made for the purpose of this valuation and their claim to such rights has been assumed to be valid. No consideration has been given to liens or encumbrances against the assets, beyond the liabilities in the books. Therefore, no responsibility is assumed for matters of a legal nature.

My work does not constitute an audit or certification of the historical financial statements including the working results of the Company referred to in this report. Accordingly, I am unable to and do not express an opinion on the fairness or accuracy of any financial information referred to in this report. Valuation analysis and results are specific to the purpose of valuation

mentioned in the report and it is as per agreed terms of our engagement. It may not be valid for any other purpose or as at any other date. Also, it may not be valid if done on behalf of any other entity.

I have no responsibility to update this report for events and circumstances occurring after the date of this report. My fees is not contingent to the results or output of this report. I will not be responsible to appear in front of Companies act, Income tax, RBI or any other regulatory authority in relation to the said valuation.

The decision to carry out the transaction (including consideration thereof) on the basis of this valuation lies entirely with the ELL and my work and my finding shall not constitute a recommendation as to whether or not ELL should carry out the transaction. The report and conclusion of value are not intended by the author and should not be construed by the reader to be investment advice in any manner whatsoever. The conclusion of value represents my opinion, based on information furnished to us by the client and other sources. Any person/party intending to provide finance/invest in the shares/business of the Company shall do so after seeking their own professional advice and after carrying out their own due diligence procedures to ensure that they are making an informed decision.

My report is meant for the purpose mentioned in point 2 of this report and should not be used for any purpose other than the purpose mentioned therein. The Report should not be copied or reproduced without obtaining my prior written approval for any purpose other than the purpose for which it is prepared.

I acknowledge that I am independent valuer and have no present or contemplated financial interest in the Company. My fees for this valuation is based upon my normal billing rates, and not contingent upon the results or the value of the business or in any other manner. I have not been engaged by the Company in any unconnected transaction during last five years.

Neither me, nor any managers, employees of my firm makes any representation or warranty, express or implied, as to the accuracy, reasonableness or completeness of the information, based on which the valuation is carried out. All such parties expressly disclaim any and all liability for, or based on or relating to any such information contained in the valuation.

Thanking you,
Yours faithfully,

.....
